

FIRST ALERT™

ProSeries

The comprehensive security and life safety platform for protecting what matters most.

Introducing ProSeries

A platform for security professionals

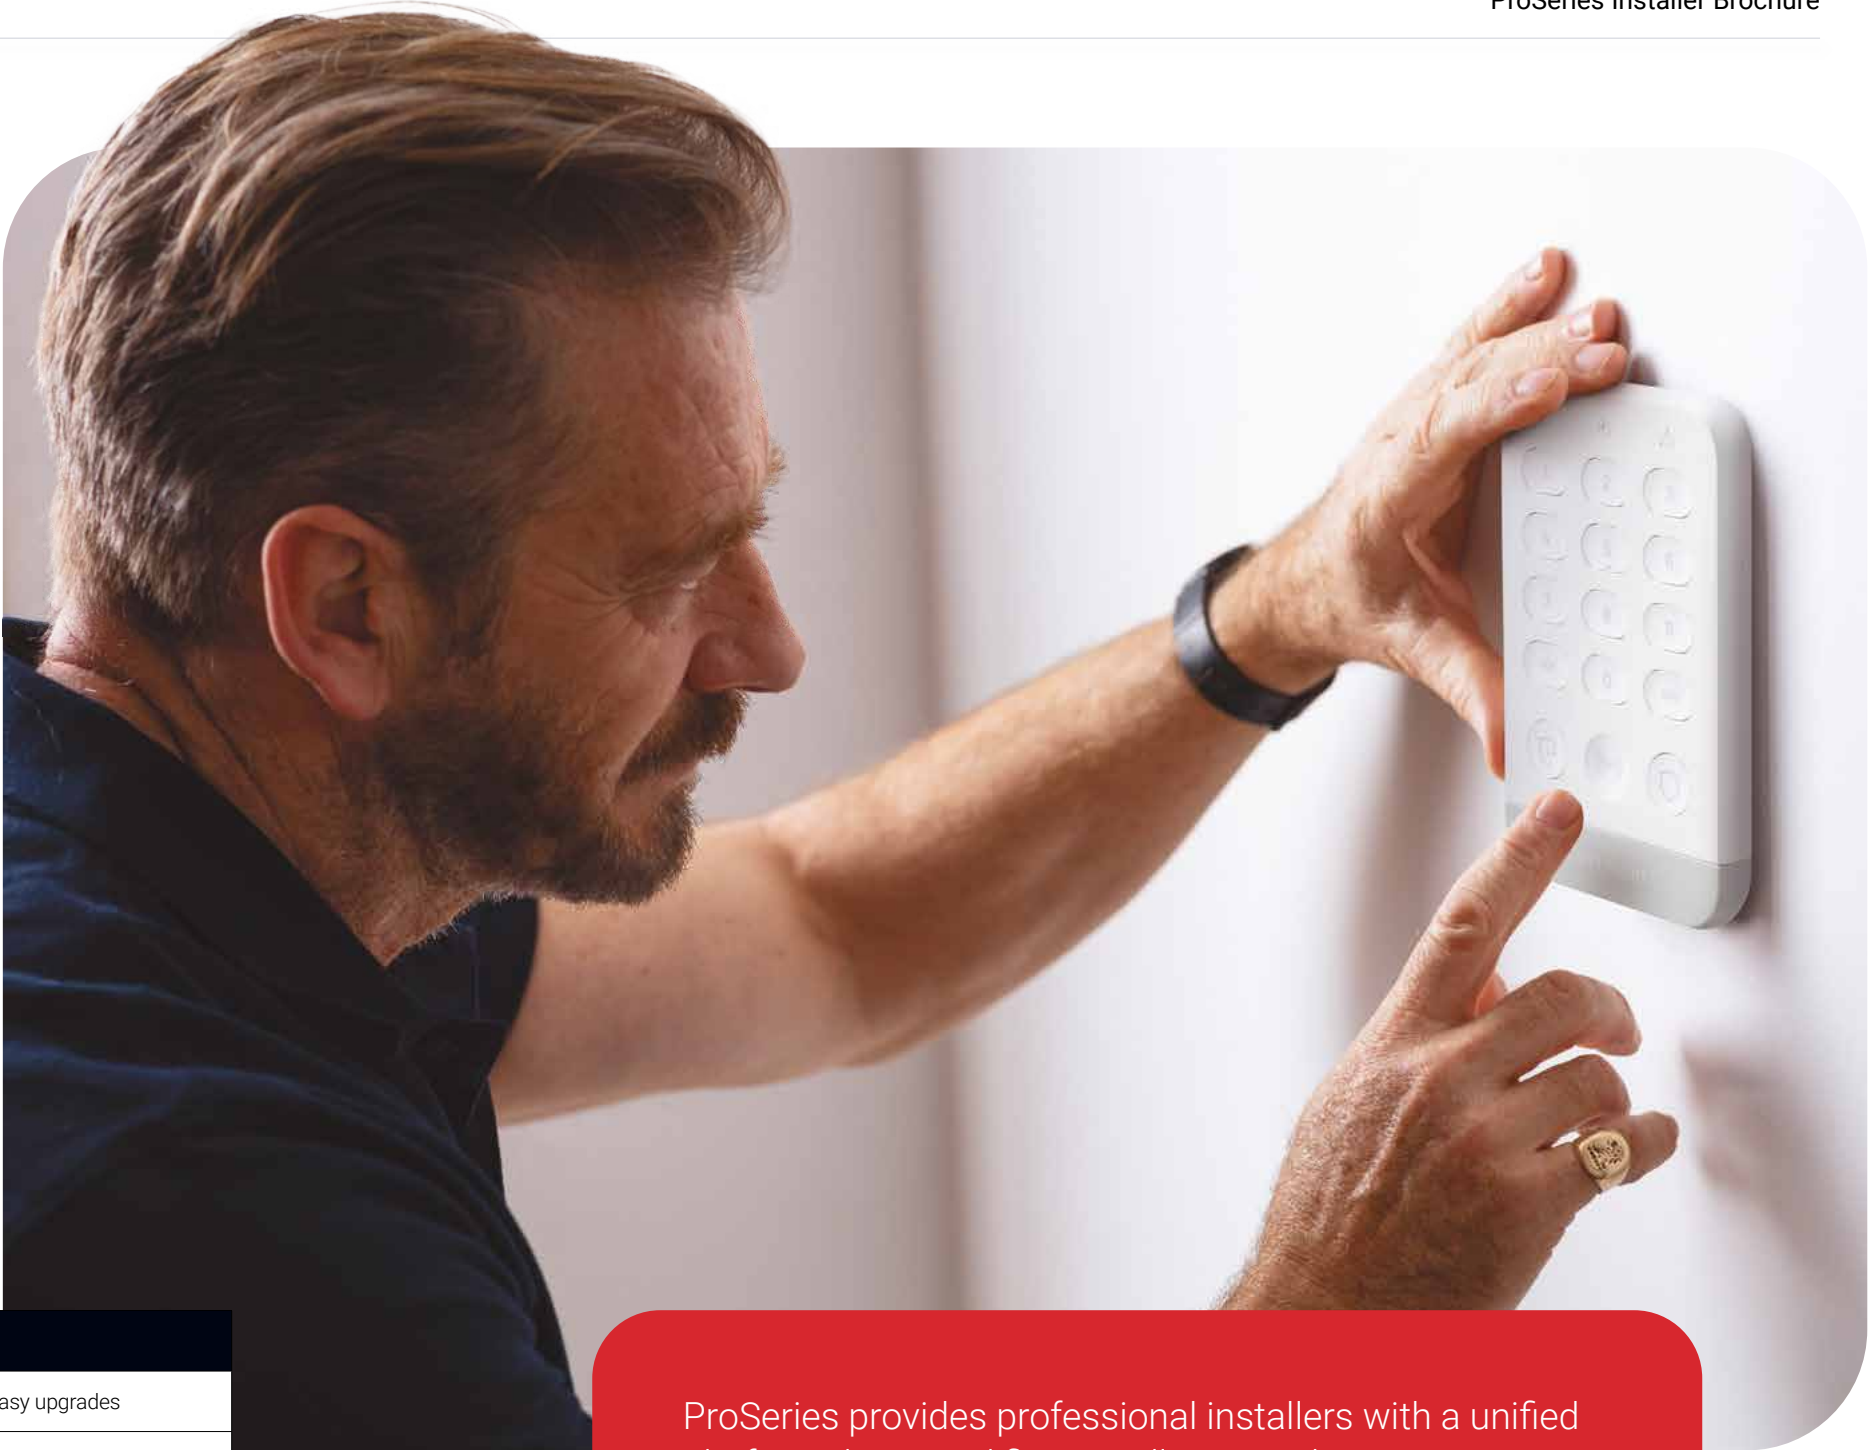

ProSeries is Resideo’s dedicated security and life safety platform, designed to meet the needs of professional installers in residential and small business environments.

With over 35 years of experience in the security industry and Resideo products in over 150 million homes worldwide, ProSeries combines certified hardware, intelligent software, flexible services and a comprehensive range of accessories to create a comprehensive and scalable solution.

Unlike many platforms that focus solely on intrusion or video, ProSeries integrates security, life safety, smart home automation and remote management into a unified ecosystem. This allows installers to diversify their offerings, grow their business and reduce their on-site time.

Key features and benefits

| Features | What it does | Why it matters to installers |
|-----------------------------------|--|---|
| Modular architecture | Over 45 interoperable devices | Enables scalable installations and easy upgrades |
| Compatibility with legacy systems | Support for Videofied and Domonial solutions | Simplifies migration from 2G/3G to 4G at a low cost |
| AlarmNet 360™ platform | Programming, diagnostics and account management via the cloud. Creation of a standard model for installation and enables remote maintenance. | Reduce time on site |
| Resideo Pro app | Mobile access to configuration, troubleshooting and customer data | Installation is quick and easy. All you need is your phone to install and manage your control panels. |
| Brand customisation | Keypads, outdoor sirens, panel and app interface are customisable with your logo | Strengthens your brand and promotes customer loyalty |
| Personal protection devices | Smoke, CO and water leak detectors | Increases installation opportunities and allows you to offer more value to each project |
| Future-proof connectivity | Compatible with the discontinuation of 2G | Prepares installations for the future and simplifies logistics |

ProSeries provides professional installers with a unified platform that simplifies installation and maintenance and promotes long-term customer engagement. With its modular design, remote capabilities and compatibility with existing systems, ProSeries is a strategic choice for scalable security installations.

ProSeries

Platform features and benefits

Certified, connected and customisable, ProSeries offers a unified solution for security, personal protection and smart home automation, backed by the global reliability of Resideo and compliant with local regulations.

-  **Expand your offering** with a platform designed to enable installers to deliver more value with every installation, integrating intrusion, people protection and smart home automation into a single certified system.
-  **Win new customers** with over 45 interoperable devices and a range of monitoring options. You can tailor each installation to specific customer needs.
-  **Optimise time spent on site** with pre-configurable devices and drill-free mounting options. After installation, maintain service efficiency with remote management tools and mobile support designed for installers on the go.

ProSeries is a certified, unified platform that combines intrusion, personal protection, smart home automation and remote management. It is designed to help installers deliver more value per installation, reduce service costs and build lasting relationships with their customers.

Reduce training time with our intuitive user interface.

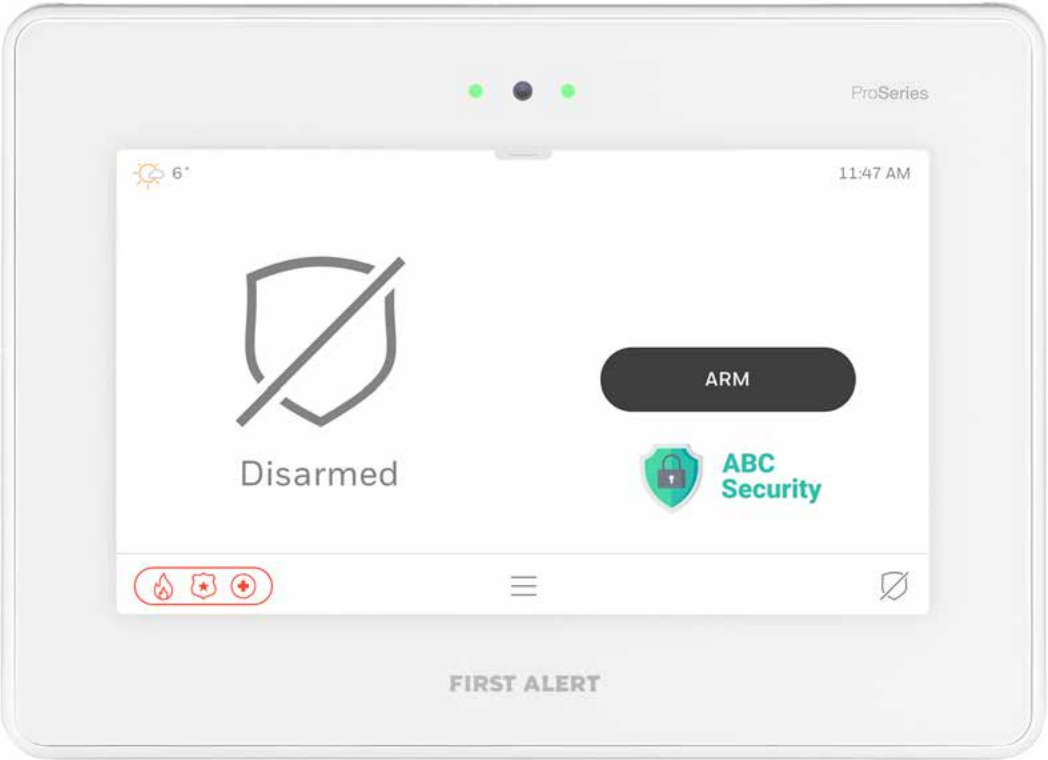

Real-time weather information, 5-day forecasts and severe weather alerts.

Reduce customer service calls with our online tools (support, maintenance and configuration).

Reduce false alarms with the easy-to-read colour touchscreen.

The built-in camera captures disarming photos. (PROAIOPLUS-EU control panel)

Reduce installation time with pre-installed batteries in wireless devices.

Reduce service calls with easily replaceable components, such as batteries.

Bluetooth disarming Easy for customers to use.

The same **emergency icons** across the range, keypads and applications, for ease of use.

Reduce support calls with online help.

No holes to drill when using the desktop mount.

ProSeries Software and services

Connected tools for professional installation and system management

ProSeries is more than just a hardware platform. It comes with a suite of cloud-based tools and services that simplify installation, facilitate system management and strengthen customer engagement. These tools are designed to help professional installers deliver consistent, high-quality installations.

AlarmNet 360™ Platform for Installers

AlarmNet 360™ is Resideo's secure, cloud-based platform designed to support professional installers throughout the lifecycle of a ProSeries installation.

From initial configuration to maintenance, it provides the tools needed to optimise operations, reduce time spent on site and deliver consistent, high-quality service to residential and commercial customers.

ProSeries installations benefit from a range of integrated services that improve both installer operations and the customer experience. These services fall into two categories:

Services included (at no extra cost)

- **System analysis**
Access performance data to identify maintenance needs and additional sales opportunities
- **Home automation integration**
Configure scenes, automation rules and voice assistant support (e.g.Amazon Alexa)
- **Notifications**
Real-time alerts for customers, enhancing peace of mind and engagement with the system
- **Total Connect 2.0 app**
This app allows your customers to access their security system remotely and works with a variety of connected home devices
- **Software updates**
Manage firmware updates and configuration tools, maintain system integrity, and reduce manual interventions

Paid services (additional options)

- **Video storage**
Native video storage eliminates the need for third-party platforms, available as a subscription
 - **Product customisation**
Add your logo and contact details to control panels, sirens, keypads, badges and Total Connect 2.0 app screen
 - **LTE connectivity and SIM card**
 - **Connectivity management**
Integrated LTE modules with SIM cards simplify logistics and reduce installation time
- These additional services enable installers to tailor solutions to customer needs, differentiate their offering and generate recurring revenue.

ProSeries Resideo Pro app

Efficiency and control for installers – from installation to support.

The Resideo Pro app is specially designed to support professional installers with remote access to essential tools, facilitating every step of the installation and maintenance process. From initial setup to ongoing support, it reduces time spent on site, improves accuracy and increases customer satisfaction.

Designed for productivity in the field, the app enables mobile configuration, diagnostics and account management, giving installers optimal responsiveness wherever they are.

It also works in conjunction with the AlarmNet 360™ platform, providing timely information and the following features:

- **System configuration**
Program control panels and peripherals directly from a mobile device
- **Troubleshooting assistance**
Access diagnostics, installation guides, and support documents
- **Customer management**
View account details, service history, and installation status on the go
- **Training resources**
Access product documentation and video tutorials to support continuous learning

With the Resideo Pro app, installers have a powerful tool that simplifies their daily routine and improves their efficiency. Download the app now – available on the App Store and Google Play.

ProSeries

Uncompromising evolution

Videofied and Domonial are compatible with ProSeries

With the end of 2G and 3G networks, older Videofied and Domonial security systems may become obsolete. ProSeries offers a smooth transition for professional installers and their customers by preserving existing installations while introducing powerful new features.

Replacing entire systems disrupts end users. ProSeries allows professionals to quickly and efficiently upgrade key components, maintaining reliable configurations and improving performance with modern, connected features.

With support for LTE connectivity, remote diagnostics, and mobile app integration via Total Connect 2.0, ProSeries brings existing systems up to current standards, ensuring continuity, reliability, and peace of mind.

Why upgrade to ProSeries

- Backward compatible with Videofied and Domonial systems
- Future ready with LTE technology and beyond
- Remote management for installers and end-users
- Professional and self-monitoring options
- Certified to comply with major European standards (EN 50131, CE, UKCA, NF&A2P)

Smart upgrade

Existing Videofied and Domonial control panels and keypads can be easily replaced:

- Control panels → PROBOX-EU / PROAIOPLUS-EU
- Keypads and readers → PROSIXLCDKP-EU / PROSIXLEDKP-EU
- Proximity tags → KTAG5

No complete replacement is necessary; all that is required is a smart migration to modern performance.

Preserving the past, protecting the future

By combining proven heritage with cutting-edge innovation, ProSeries ensures that Videofied and Domonial systems continue to deliver secure, connected protection well beyond the 2G and 3G era.

Product hardware information

Control/security panels

Touchscreen panel PROAIOPLUS-EU

- 7" LCD touchscreen with integrated camera
- 127 intrusion devices, 4 partitions, 250 property and personal protection zones
- 96 users, 4,000-event log
- Integrated WiFi/Z-Wave module, LTE modules available as an option
- 36-hour backup battery
- Compatible with Videofied or Domonial peripherals
- Dimensions
148 mm (H), 202 mm (W), 30 mm (D)

Control/security centres

Panel PROBOX-EU

- 127 intrusion devices, 4 partitions, 250 zones for protecting property and people
- 96 users, 4,000-event log
- Integrated Ethernet, optional LTE and WiFi/Z-Wave modules available
- 48-hour backup battery
- Compatible with Videofied or Domonial devices
- Dimensions
228 mm (H), 238 mm (W), 64 mm (D)

MotionViewers

Indoor motion detector and video camera PROINDMV-EU

- Motion-activated or scenario-activated video
- Colour video at 10 fps
Captures images in low light or no light conditions
- Large coverage area
Detection range of 12 m x 17 m
- Battery life
Up to 4 years
- Dimensions
113 mm (H), 55 mm (W), 50 mm (D)

MotionViewers

Outdoor motion detector and video camera PROOUTMV-EU

- Motion-activated or scenario-activated video
- Colour video at 10 fps
Captures images in low light or no light conditions
- Large coverage area
Detection range of 12 m x 17 m
- Battery life
Up to 4 years
- Dimensions
132 mm (H), 62 mm (W), 70 mm (D)

Wireless detectors

Door / window detectors with or without shock detection
PROSIXCT-EU / PROSIXSHKCT-EU

- **Magnetic contact**
- **Magnet position**
Left or right
- **Wired input**
- **Battery life**
Up to 5 years
- **Shock detection (PROSIXSHKCT-EU)**
- **Dimensions**
105 mm (H), 24 mm (W), 23 mm (D)

Wireless detectors

Motion detector
PROSIXPIR-EU

- **Detection range**
12 m x 17 m
- **Battery life**
Up to 5 years
- **Pet immune**
- **Dimensions**
106 mm (H), 60 mm (W), 41 mm (D)

User interfaces

LCD keypad
PROSIXLCDKP-EU

- **Arming buttons (total, perimeter and night mode)**
- **RFID badge reader**
- **Battery life**
Up to 4 years
- **Alert functions**
- **Dimensions**
153 mm (H), 97 mm (W), 34 mm (D)

User interfaces

LED keypad
PROVLEDKP-EU

- **Arming buttons (total and perimeter)**
- **RFID badge reader**
- **Battery life**
Up to 4 years
- **Alert function**
- **Dimensions**
136 mm (H), 88 mm (W), 25 mm (D)

Wireless detectors

Glass break detector
PROSIXGB-EU

- **Detection range 7.6 m**
- **Tester: FG701**
- **Battery life**
Up to 4 years
- **Dimensions**
29 mm (H), 95 mm diameter

Wired detector interface

Wireless converter
PROSIXC2W-EU

- **Converts 12 V wired sensors to SIX® wireless**
- **8 wired zones with end-of-line resistor – compatible with existing contacts**
- **Provides 12V/100mA power supply for wired sensors**
- **5 V DC power supply and 24-hour backup battery included**
- **Dimensions**
113 mm (H), 175 mm (W), 31 mm (D)

Remote controls/Badges

Coloured badges
KTAG5

- **Set of 5 coloured badges compatible with ProSeries LCD and LED keypads for arming and disarming the system**
- **Dimensions**
60 mm (H), 30 mm (W), 5 mm (D)

Remote control

Two-way wireless keyfob
PROSIXFOB-EU

- **Audible alarm**
- **Four buttons**
- **Battery life**
Up to 2 years
- **Dimensions**
65 mm (H), 36 mm (W), 11 mm (D)

Continued on next page >

Personal protection

Wireless panic button
PROSIXPANIC-EU

- IP32
- Can be worn on a belt clip, wrist strap and/or bracelet
- **Battery life**
Up to 4 years
- **Dimensions**
40 mm (H), 47 mm (W), 15 mm (D)

Personal protection

Wireless medical assistance button
PROSIXMED-EU

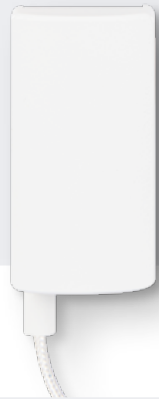

- IP32
- Can be worn on a belt clip, wrist strap and/or bracelet
- **Battery life**
Up to 4 years
- **Dimensions**
40 mm (H), 47 mm (W), 15 mm (D)

Environmental protection

Flood detector
PROSIXFLOOD-EU

- **Detection cable**
- **Cable length**
1.2 m
- **Battery life**
Up to 5 years
- **Dimensions**
79 mm (H), 41 mm (W), 30 mm (D)

Personal protection

Smoke detector
PROSIXSMOKE-EU

- **Audible signal** 85 dBA at 3 m
- **LED indicators**
- 'One-go-all-go' functionality
- **Battery life**
Up to 4 years
- **Dimensions**
46 mm (H), 120 mm diameter

Sirens

Outdoor siren
PROVSIRENOL1-EU / L2-EU

- **Siren output level** 110 dB at 1 m
- 'One-go-all-go' functionality
- **Indicator lights** for arming, disarming and alarm
- **Battery life**
Up to 5 years
- **Dimensions**
320 mm (H), 233 mm (W), 54 mm (D)

Sirens

Indoor siren
PROSIXSIREN-EU

- **Audible signal** 95 dBA at 1 m
- 'One-go-all-go' functionality
- **Indicator lights** for arming, disarming and alarm
- **Battery life**
Up to 5 years
- **Dimensions**
49 mm (H), 139 mm diameter

Personal protection

Smoke detector and intrusion siren
PROSIXSMOKS-EU

- **Audible signal** 85 dBA at 3 m
- 'One-go-all-go' functionality
- **LED indicators**
- **Battery life**
Up to 4 years
- **Dimensions**
46 mm (H), 120 mm diameter

Personal protection

Carbon monoxide (CO) detector
PROSIXCO-EU

- **Audible signal** 85 dBA at 3 m
- 'One-go-all-go' functionality
- **LED indicators**
- **Battery life**
Up to 5 years
- **Dimensions**
50 mm (H), 158 mm diameter

Accessories

Wireless repeater
PROSIXRPTR-EU

- Repeater for extending the radio range of the SiX signal
- Up to 2 repeaters per ProSeries control panel
- Received signal strength indicator (RSSI) displayed by LEDs
- 5 V DC power supply and 24-hour backup battery included
- Dimensions
113 mm (H), 175 mm (W), 31 mm (D)

Accessories

Zigbee home automation module / WiFi-Z-Wave module
PROZB-EU / PROWIFIZW-EU

- WiFi, Z-Wave and Zigbee modules for communication and automation
- Compatibility across the entire range
- Dimensions
10 mm (H), 67 mm (W), 30 mm (D)

Common features

- Two-way wireless technology
- Secure 128-bit AES encryption
- Tamper protection / lid opening and removal from wall
- Remote updates and diagnostics

Take action. Switch to ProSeries with confidence.

If you work with a product range you know, but are looking for more flexibility, smarter tools and greater added value, ProSeries is for you. Backed by Resideo's trusted heritage and designed for professional installers, it's a risk-free solution to evolve your offering, simplify your processes and grow your business. Make the switch and see the difference for yourself.

Accessories

LTE cellular communication modules
PROLTE-EU / PROLTES-EU /
PROLTES-M-EU / PROLTE-M-EU

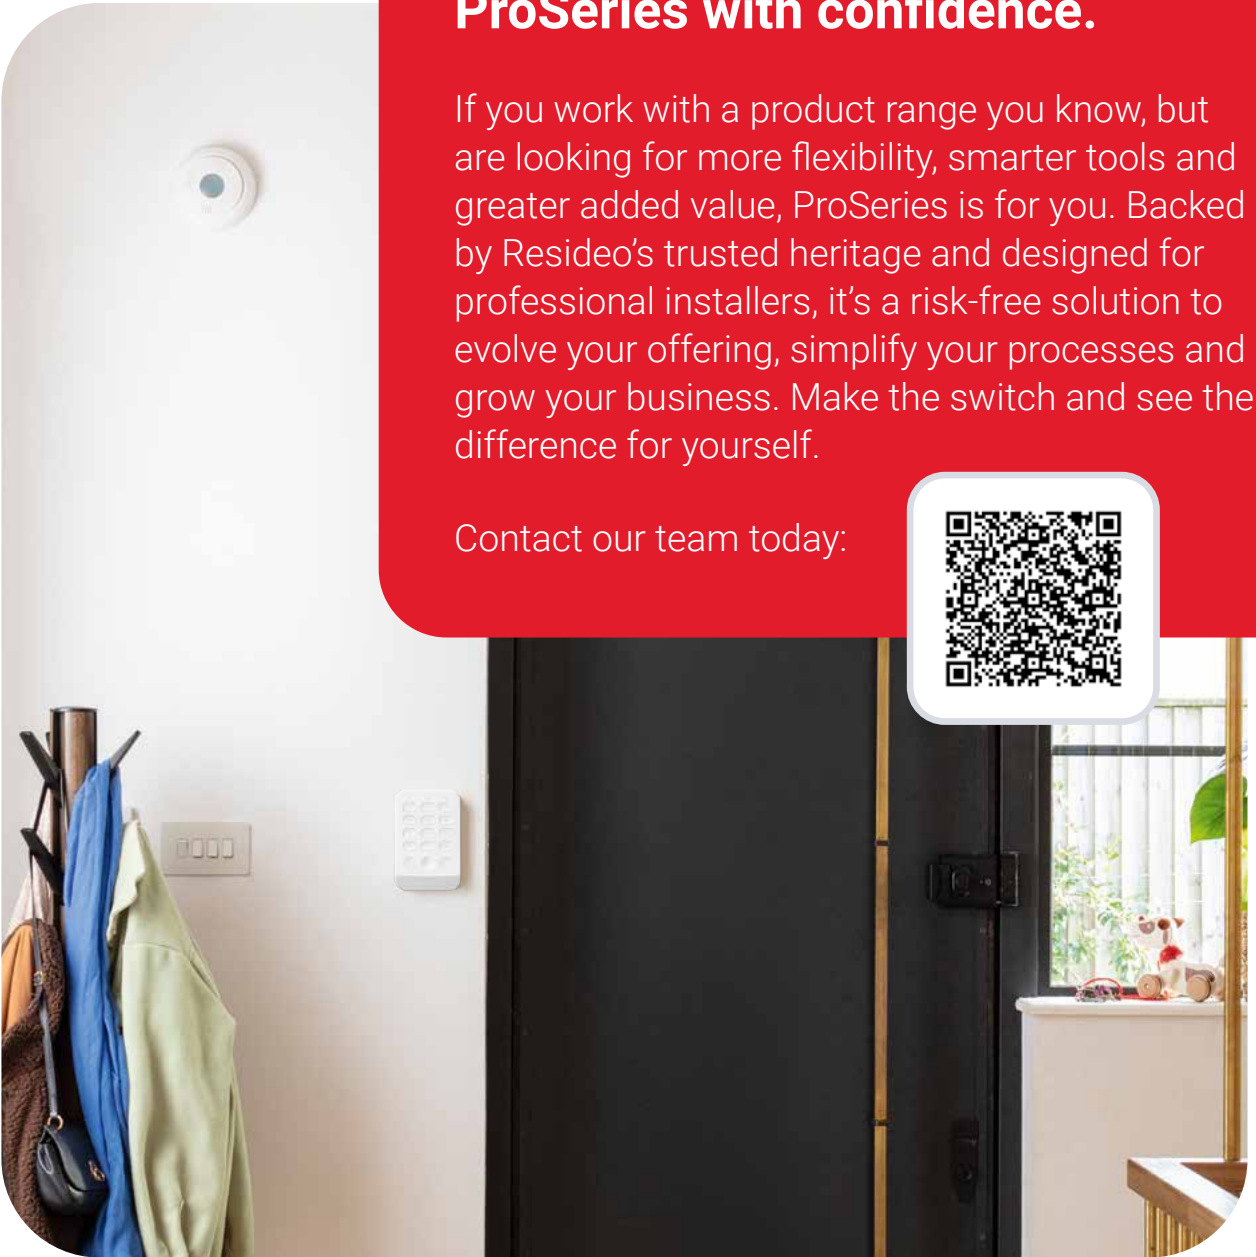

- Communication modules
- Provides ProSeries control panels with a cellular communication channel
- With SIM card (PROLTE-EU, PROLTE-M-EU)
- Without SIM card (PROLTES-EU, PROLTES-M-EU)
- Cat1 (PROLTE(s)-EU)
- Cat-M (PROLTE(s)-M-EU)
- Increase signal coverage with an optional external antenna

Accessories

Smart speaker
PROAUDIO-EU

- Supports a two-way audio verification session with the Central Station
- Backup battery in case of power failure
- Connected directly to the control panel via Wi-Fi
- Integrated emergency call button
- Dimensions
110 mm (H), 110 mm (W)
