ProSeries.

The ultimate end-to-end security and life safety platform.

Introducing ProSeries.
A security platform for professionals.

The comprehensive security and life safety platform trusted by homeowners and small businesses.

Resideo is a leading provider of home security and life safety solutions and we've got more than a century of experience behind us, powering the next wave of connected home technology and trusted in over 150 million homes.

With ProSeries, customers choose our security and life safety products because they provide flexible control and peace of mind in an uncertain world.

Professional installers choose ProSeries for an outstanding install experience from a modular platform, built to support you every step of the way.

One platform. Connected to the core.

At its core, life safety products connect to advanced smart home products and technology, working together to provide peace of mind for your customers and a product you can rely on.

Save time and money.

With remote maintenance and over-the-air upgrades to panels and sensors.

Why ProSeries?

Security that can grow.
ProSeries is totally scalable. A modular design means you can easily return to install additional products as customers naturally expand their existing security.

A future-proof solution.
With regular add-ons and hassle-free over-the-air updates to panels and sensors, ProSeries makes it easy for you to install now, and easy to upgrade for your customers at any time.

Increase your customer base.
Because ProSeries works for businesses and homes, you can reach more customers and win more business.

ProSeries.
Platform features and benefits.

Intuitive security.

ProSeries offers a host of features and benefits for professionally or self monitored security day and night. It's responsive, with fast alerts and hands-free disarming for an enhanced user experience.

Life safety.

ProSeries smart sensors detect safety risks from smoke and CO, and can even alert emergency services.

Smart thinking.

ProSeries products offer a smart, connected home with the single, easy-to-use Total Connect 2.0 app, which controls lighting, locks, thermostats and more.

Reduce training time with our intuitive user interface.

Current, 5-day and **severe weather alerts.**

Reduce customer service calls with our remote tools for end-user support services, system settings and firmware updates.

Leading the way.

Seamless. Scalable.
A platform packed with features.

The same emergency icons your customers have depended on for years across all platforms.

Built-in speaker & microphone for voice announcements (PROAIOPLUS-EU Panel).

Reduce customer call outs with troubleshooting videos.

ProSeries.
Software and Services.

ProSeries is not just hardware, it is enhanced by a dedicated installer platform, apps and supported services, offering the most comprehensive security solution.

AlarmNet 360™ platform for installers.

This cloud-based business management platform helps to improve your business operations, increase efficiency and productivity while delivering valuable insights on accounts, helping to you to drive growth and lower lifecycle costs.

The platform enables ProSeries panel and peripheral programming and access to the Total Connect 2.0 app. Installers have anytime, anywhere web and mobile control over programming, troubleshooting, account management and more all from the convenience of the cloud.

What AlarmNet 360™ can do for you

Account Creation	▪ Saves installation time with intuitive wizard-based account creation workflow	**Endpoint Configuration**	▪ All-in-one place configurability ▪ Error protection with separate assignment permissions ▪ Supports stringent security policies
Remote Diagnostics	▪ Eliminate engineer call outs with remote zone verification and diagnostics	**Insights**	▪ Active and comms failure status across entire install base ▪ Easily plan engineer call outs ▪ Target marketing and sales strategies
Programming Templates	▪ Correct, consistent system installs ▪ Reduce programming errors and install time		
Checklists	▪ Reduce call backs ▪ Improves installation confidence ▪ Streamlines install time	**Smart User Management**	▪ Assign system programming permissions to installers ▪ Give agents access to account management and diagnostics
		Firmware Management	▪ Full flexibility and control on updates

Security and innovation at every step.

AlarmNet 360™ sets you apart from the competition.

Installation enabled by services.

Powered by Pro-IQ™, there are a range of additional services that complement a ProSeries installation for installers and end users, including:

Insights
Get valuable end user insights through system analytics, helping to reduce troubleshooting time with a quick view on problem areas, identifying new upsell opportunities.

Automation
Customers also enjoy greater flexibility to integrate their security system with other smart home devices which add unique value using a wide range of automation enablers:

- Smart Scenes allows end users to configure their own customised trigger-action combinations

- Amazon Alexa voice assistant support means seamless integration with existing smart home devices

- Integrate with Resideo's T-Series range of thermostats

- Automation Rules allows installers to configure bespoke trigger-action customisations for their customers (the end users)

Connectivity
Save on logistics by including SIM connectivity with your system order and reduce install time with built-in SIM on the LTE module.

Co-branding
Promote your business and increase brand awareness with fast access to customer contact details. Customers get up-to-date contact information whenever they need it.

Video storage
Reduce complexity – no need to engage third party vendors for video storage.

Notifications
Offer full remote peace of mind to your customers.

ProSeries.
One partner. One system.
A world of opportunity.

ProSeries is an ever-growing ecosystem, built to keep pace with a continuously changing world.

With such a broad range of modular security and life safety accessories, your customers can be confident they have a platform for the long-term, and you can be confident in driving repeat business.
