

# UNCOVER THESE TIPS FOR A SAFER AND MORE SECURE HOME

START YOUR HOME AUDIT TODAY.

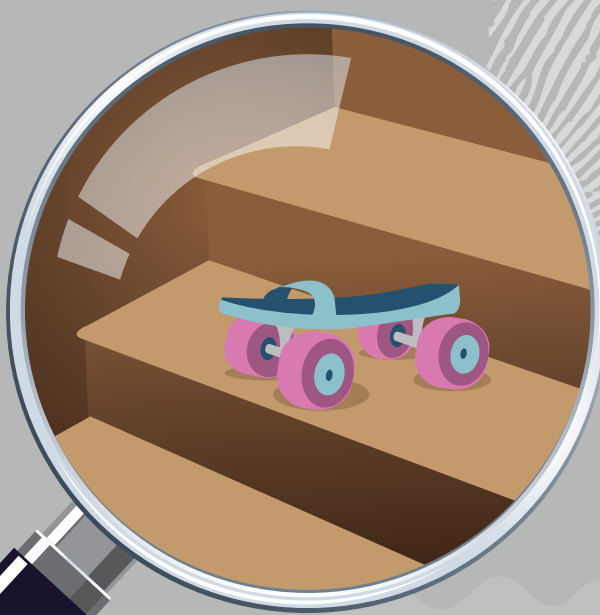

## LOCK THE DOORS AND WINDOWS

Doors and windows are the most common entry points for burglars, so keep all entry points, including sliding glass doors secured during the day.

## BEWARE OF SILENT DANGERS

Don't compromise on carbon monoxide safety. Install CO detectors on every floor, inspect fuel burning appliances and have chimney and fireplaces serviced annually. Also, never leave a car running inside a garage.

## STEP UP YOUR STAIR SAFETY

Falls on stairs are the second most common cause of accidental death in America. Help reduce the risk of stair-related injuries by removing any clutter from your steps.

## DON'T DRY & DASH

Dryer fires cause an estimated \$35 million in property loss each year. Prevent fires by cleaning lint filters every time you use the dryer and be sure to check your vent ductwork every year.
