# Help homeowners focus on what matters most

With advanced event detection, VX Series products differentiate between people, vehicles, animals, and including packages for the outdoor cameras—eliminating false alarms and notifying homeowners about things that matter most.

The VX Series integrates with the ProSeries All-in-One Panel (ONEPROA7PLUS ProSeries Panel) offering on-screen video streaming.

# First Alert HD Outdoor Camera

The outdoor camera offers a comprehensive set of video surveillance capabilities for the self-monitoring homeowner, including color night vision, color night vision on-event, deterrent spotlight, and siren. The camera features a high-resolution 2 MP image sensor with Wide Dynamic Range (WDR) for crisp, clear live and recorded video that looks great any time of day.

The camera supports WiFi and Ethernet network connectivity for fast and reliable installation. When Ethernet is not online, the camera automatically connects to WiFi to ensure recording continues. Additionally, the outdoor camera can be powered by Ethernet (PoE) or AC mains. The optional backbox helps organize and hide cables while mounting for a clean finish on the home's exterior.

Optional CAMWE-WOBB
Use the backbox to hide cables and connections

# First Alert HD Video Doorbell

The HD video doorbell delivers advanced features, capability, and reliability that customers expect in their connected home. Homeowners can greet visitors, keep track of package deliveries, and monitor general activity outside the doorway from any location. With advanced event detection for meaningful notifications, the video doorbell offers leading video quality and enhanced performance.

Along with general-purpose motion detection, the HD video doorbell includes people, vehicle, animal, and package detection. The sound detection feature can also alert homeowners to a loud sound outside the home.

Dual-band 2.4GHz and 5GHz WiFi connectivity provides flexibility and range while simplifying the installation. The HD video doorbell includes a gray and white trim ring that blends well with existing home colors. It is made of a UV-resistant material, that is designed to prevent environmental wear in extreme weather conditions.

# First Alert HD Indoor Camera

This First Alert® HD indoor camera allows users to monitor the interior of the home through live or recorded video. Homeowners can keep an eye on pets, kids, elderly family members, or guests with crystal-clear 2K resolution and enhanced night vision. This cutting-edge device is equipped with advanced event detection capabilities, whether it's a person, a pet, or a vehicle in the garage, delivering meaningful notifications.

The indoor camera captures 1080p video and offers a way to ensure privacy with an automated privacy shield, controllable through either the camera or the Resideo Connect app.

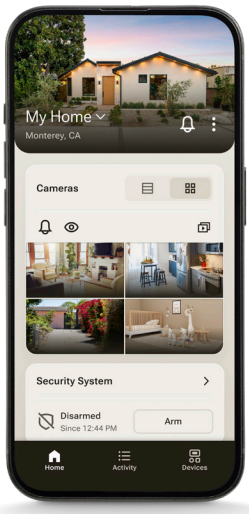

# Anytime from anywhere access

## Resideo Connect app

Stay connected with HD video viewing with advanced event detection

Homeowners use the Resideo Connect app to view live video, video event clips, camera configuration details, and more. Using the app, homeowners can control their connected home—security system, locks, and other devices—through one easy-to-use app.
