Resideo Thermostat Private Label Program

Associate your company name with the Honeywell Home Brand

Program Overview

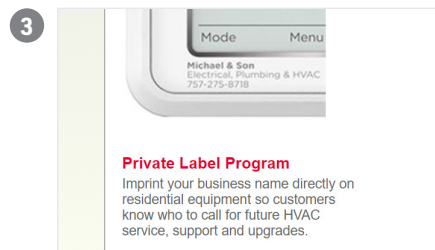

The Resideo Thermostat Private Label Program gives you the opportunity to provide your customers with the best quality thermostat with your label attached. They'll know exactly who to call for future HVAC needs – and you'll get their reoccurring business. The program includes up to three full lines of your personalized information printed onto the thermostat cover, low minimum order quantities, and no annual volume commitment.

Getting Started

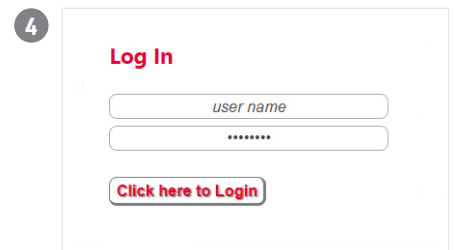

1 To get started go to customer.resideo.com and login to your company account

Hover over Support and Resources at the top of screen and select Product Label Programs

Click on Resideo's Private Label Program

Sign in or create an account, then follow the online instructions for label and part number set up.

When setting up your label keep in mind

The part number(s) you create must be unique to each customer and each product.

Multiple parts can be set up under one label rather than creating new labels for each part number.

You must use your unique customer part number(s) when ordering private label thermostats from Resideo.

Orders are placed in case quantities.
