

**GET UP TO \$105 WHEN YOU UPGRADE TO THE
HONEYWELL HOME T10 SMART THERMOSTAT**

APS Cool Rewards

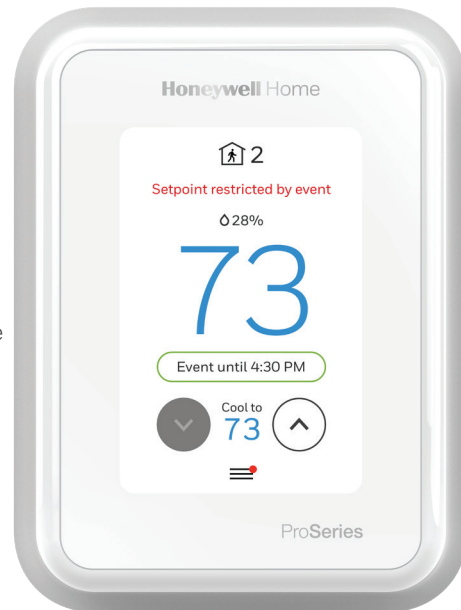

It pays to enroll in APS Cool Rewards

Earn **\$105** from APS as a thank you for helping the power grid during some of the warmest days of the year.

How it works

- 1** Install a Honeywell Home Smart Thermostat, and receive \$30. Find out more at aps.com/thermostat.
- 2** Once it's been connected to Wi-Fi, visit aps.com/byot to enroll it in the APS Cool Rewards program.
- 3** For enrolling, you will receive a one-time \$50 bill credit per thermostat and you will also receive a \$25 participation bill credit per thermostat each year you participate.

This means APS will occasionally adjust your thermostat for a short time during peak times between June 1 and September 30. For example, peak usage time for cooling homes during the summer tends to be between 3 p.m. – 8 p.m. Your thermostat will pre-cool your home before those peak usage times so that your home stays comfortable while adjustments are made to reduce your usage.
